TRANSPORTATION

HUSA TRANSPORTATION

The private alternative for your rail freight!

Husa Transportation Railway Services is a private railway company that offers traction and personnel services for the national and international transport of your rail freight.

TRACTION

On a regular base our modern fleet of locomotives connect the seaports in The Netherlands, Germany and Belgium to the inland terminals and the important industrial areas in the hinterland of Western Europe.

Whether it concerns the transport of cars, coal, chemicals, waste, containers, wagon groups or just the repositioning of empty wagons, Husa Transportation always finds the best suitable solution for its customer.

Husa Transportation has its own railway licenses and offices in both The Netherlands and Germany. In close cooperation with reliable and experienced partners we can serve you in the entire European market.

PERSONNEL

With a loyal group of dedicated and highly qualified engine drivers and wagon inspectors Husa Transportation offers its clients excellent railway solutions in both The Netherlands and Germany.

Our logistic engineering department develops, in close cooperation with our clients, efficient and cost effective logistic solutions meeting up to expectations in the transport demands.

With modern IT support, our department of process control, monitors our clients transports on a 24/7 base and acts on the background in order to be able to pro actively inform our clients on the actual status of their transports.

OTHER SERVICES

Apart from its rail traction services Husa Transportation can also offer you the following additional services:

- Offering engine drivers for your test drives
- Offering wagon inspectors for the check up of your wagons
- Renting you our locomotives, rail wagons and waste containers/wagons

Husa Transportation Railway Services is a 100% daughter of the Dutch based Husa Transportation Group, a group of companies specialized in intermodal and multimodal transport services by rail, road and barge.
